

NANDINI A R

Bengaluru, Karnataka | thenandiniar@gmail.com | github.com/thenandiniar | linkedin.com/in/thenandiniar

B.Tech CSE (AI/ML) student at UVCE Bengaluru (2023–27). Open-source contributor to DeepChem (NumFOCUS) — built a PyTorch-native symbolic regression engine using genetic programming, benchmarked on MoleculeNet datasets. Selected for GSSoC '26 on both the Open Source and AI/Agents tracks. Strong foundation in ML, deep learning, NLP, and full-stack development. Deeply aligned with Glance's vision of building personalised, agentic AI experiences at massive scale.

TECHNICAL SKILLS

AI / ML: PyTorch, TensorFlow/Keras, Scikit-learn, LSTM, HuggingFace Transformers, Genetic Programming, NLP, OpenCV, Pandas, NumPy
Backend: Python (Flask, FastAPI), Node.js, Express.js, REST API Design, JWT Authentication
Frontend: React.js, Next.js, HTML5, CSS3, JavaScript (ES6+), Bootstrap, Responsive Web Design
Databases: MongoDB, Firebase, Supabase (PostgreSQL), SQL
DevOps & Tools: Git, GitHub, Docker, Vercel, VS Code, AWS (basics), GCP (basics), Postman
Languages: Python, JavaScript, C++, Java, C

INTERNSHIP EXPERIENCE

CodeAlpha | Machine Learning Intern — Remote Apr 2026 – May 2026

- Completed supervised ML tasks covering model building, EDA, and evaluation; built and documented projects in scikit-learn and Python, added to portfolio GitHub repository.

OPEN SOURCE — GOOGLE SUMMER OF CODE 2026

DeepChem (NumFOCUS) | Contributor — PR #4833 | feat/symbolic-regression-ga Mar 2026 – Present

- Designed and built a PyTorch-native symbolic regression engine using genetic programming (expression trees, crossover, mutation, tournament selection), replacing DeepChem's Julia/PySR dependency — fully integrated with the DeepChem model API.
- Benchmarked on MoleculeNet (ESOL, BBBP AUC 0.635, BACE AUC 0.699); implemented sigmoid + ROC-AUC classification fitness under mentor Bharath Ramsundar with clean Git branch discipline.
- Selected for GSSoC '26 on both Open Source and AI/Agents tracks; actively contributing across multiple issues.

PROJECTS

Healthcare AI Assistant — Python, NLP, PyTorch, FastAPI, HuggingFace Transformers 2025 – Ongoing

- Transformer-based diagnostic assistant serving real-time patient query classification and diagnosis recommendations via FastAPI REST endpoints — directly relevant to personalised AI inference at scale.

Stock Market Price Prediction — Python, LSTM, TensorFlow/Keras Apr 2026

- LSTM model on Yahoo Finance time-series data with Pandas preprocessing, Min-Max normalisation, sequence windowing, and Matplotlib visualisation of forecast vs actual price trends.

Rock vs Mine Detection — Python, SVM, KNN, Logistic Regression, Scikit-learn 2024

- Processed UCI Sonar dataset; benchmarked multiple classifiers with full EDA, feature scaling, confusion matrix analysis, and documented complete methodology in Jupyter Notebook.

MERN Stack E-Commerce Platform (Amazona) — MongoDB, Express.js, React, Node.js 2024 – 2025

- Full-stack e-commerce app with JWT auth, product listings, cart & order management via RESTful APIs; deployed mobile-first frontend on Vercel with protected routes and component-based architecture.

DevDen Community Platform — Next.js, Supabase, PostgreSQL 2025

- Developer community platform with Supabase real-time data, Auth (row-level security), dynamic post/feed features, and Next.js App Router for SSR performance optimisation.

EDUCATION

B.E. Computer Science & Engineering — UVCE, Bengaluru | CGPA: 7.2 | 6th Sem SGPA: 8.55 2023 – 2027

Relevant: Data Structures & Algorithms, Machine Learning, ANN & Deep Learning, Data Mining, DBMS, Operating Systems, Computer Networks

ACHIEVEMENTS & CERTIFICATIONS

- Google Gemini Student Ambassador 2026 — selected and onboarded (Communicate Marketing Solutions x Google)
- Google Cloud Gen AI Academy APAC 2026 — Track 1, Cohort 1 | Tata iQ GenAI Forage Virtual Simulation — Completed
- GitHub Pro (Student Developer Pack) | 30+ open-source and personal repositories on GitHub
- 100 Days of Code — Python (CodeWithHarry, 2024) | Tech content creator on Instagram Reels & YouTube Shorts for Indian CS students
